Profile

I am a third-year computer engineering student with a passion for web development and an interest in game development. I am currently learning and gaining hands-on experience in these areas and I am seeking an internship opportunity at your prestigious organization. I believe that this opportunity will help me expand my skills and apply them in a dynamic and challenging environment.

Education

Modern Education Society's Wadia College of Engineering, 12/2021 – present
Pune Pune, India
B.E Computer Engineering

B H Chate Residential Jr. College of Science 06/2021
HSC Pune, India

Certificates

Introduction to Front-End Development -Level 1 [🔗](#)

In the Coursera Front-End Development course, I gained a foundational understanding of web development, including HTML, CSS, and modern UI frameworks like Bootstrap and React. As a result, I can now create responsive and visually appealing web pages.

The Frontend Developer Career Path [🔗](#)

I've finished Scrimba's Frontend Developer Career Path! This program has been instrumental in equipping me with the skills I need to build modern web applications using HTML, CSS, JavaScript, and React. I'm particularly excited about my newfound knowledge of UI design principles.

Introduction to Game Design [🔗](#)

By taking this Introduction to Game Design course, I gained a fundamental understanding of game mechanics, rules, and the process of conceptualizing and crafting compelling game ideas, all without requiring programming expertise.

Skills And Technologies

Programming Languages: (C, C++, Java, Javascript)

Database Systems: (MySQL, MongoDB)

Operating Systems: (Windows, Ubuntu(Basic), MacOS)

Web Technologies (React JS, HTML5, CSS3, Bootstrap 4, Postman, Axios, NodeJs)

ReactJS (React: A popular JavaScript library for building user interfaces.)

Projects

#VANLIFE

present

#VANLIFE is a campervan rental website developed using React.

VANLIFE is a React-based website for hassle-free campervan rentals. It uses React Router 6 and shadcn/ui for seamless navigation and stylish UI elements. Tailwind CSS enhances the user interface, while TypeScript, Material-UI, and Supabase ensure robust functionality. No installation is required to explore the campervan options.

Airbnb Clone Application

Created a full-stack Airbnb Clone using React.js for the frontend and Express.js for the backend. Implemented user authentication, property listings, and booking functionality.

Web-Based Flappy Bird Game using Unity

Using Unity game engine, I developed an engaging web-based Flappy Bird game that showcases my proficiency in game mechanics, user interaction, and visual design.

Quizzical

present

Quizzical is a quiz web application.

Quizzical is a quiz web application that accesses trivia questions from the Open Trivia Database API and scores players based on their answers. It offers multiple game options such as difficulty and category for players to customize their experience.
